pa rural water Association Training Registration Form

February 23, 2027

#9716 - Integrating AI and Machine Learning in Modern Water and Wastewater Treatment Systems
#10071 - Artificial Intelligence Implementation for Water and Wastewater Utilities

5 Water & Wastewater Contact Hours

Perkasie Regional Authority - Bucks County

Please provide the best contact information in case of class cancellation or changes.

Name: _____ PA-DEP Client ID (if applicable): _____

System/Company: _____

Address: ❑ Home ❑ System _____

City: _____ State: _____ Zip Code: _____

Attendee Cell: _____ Fax: _____

Attendee Email: _____

PAYMENT:

❒ Check (payable to PRWA) ❒ Invoice Me: ❍Home ❍System

For security reasons, all credit card transactions must be processed through our website. If you prefer to pay via credit card, please visit www.prwa.com.

PRWA Member? ❒ Yes ❒No

$249 for PRWA Members

$294 for PRWA Non-Members

Lunch and materials included with registration

Amount Due: $_____

Register: FAX: (814) 353-9341 | **MAIL**: 138 W. Bishop St., Bellefonte PA 16823 | **TEXT FORM:** (814) 353-9302
EMAIL: TRAINING@PRWA.COM / **ONE REGISTRATION PER STUDENT PLEASE.**
Questions Call: (800) 653-7792 or EMAIL: TRAINING@PRWA.COM

Date: February 23, 2027
Class Time: 8:00 AM to 2:30 PM
Contact Hours: 5 Water & Wastewater
Instructor: Sommers Valley Associates, LLC

Location:
Perkasie Regional Authority
150 Ridge Road
Sellersville, PA 18960

About the Class:

Integrating AI and Machine Learning in Modern Water and Wastewater Treatment Systems: The 2025 ASCE Report Card on the Nation's Infrastructure gives DW facilities a grade of C- and WW facilities a grade of D+. With an aging workforce to accompany the aging infrastructure, advanced technologies are a vital component in meeting the challenges by utilizing data being currently collected and transforming it into actionable items, saving significant time and money.

Artificial Intelligence Implementation for Water and Wastewater Utilities: Artificial intelligence (AI) and other emerging digital technologies are rapidly transforming the water and wastewater industry by providing new tools to improve operational efficiency, asset management, regulatory compliance, maintenance, and decision-making. While many utilities recognize the potential benefits of these technologies, many organizations lack a practical framework for evaluating, planning, and implementing AI solutions. This course is designed to provide water and wastewater professionals with the knowledge and practical guidance needed to assess organizational readiness, identify appropriate applications, understand implementation requirements, and develop a structured roadmap for the successful adoption of AI technologies across utility operations.
