Call (800) 653-7792 ext. 107 or 108

**#874**

# **ASSE Backflow Prevention Assembly Testers Conversion Re-Certification**

## **21 WATER AND WASTEWATER CONTACT HOURS**

All Public water systems need to be concerned about backflow and cross-connection because all hydraulic systems are subject to pressure differentials that allow backflow to occur. Chapter 109.709 states that "At the direction of the Department, the public water supplier shall develop and implement a comprehensive control program for the elimination of existing cross-connection or the effective containment of sources of contamination, and prevention of future cross-connections." This course will train and recertify participants how to test and troubleshoot backflow prevention assemblies to ensure continued protection of their water supply.

This is also a conversion class. Completion of the ASSE Conversion Class will convert current Non-ASSE tests such as, NEWWA, BMI to ASSE Certification. You must have a current tester certification to attend. Please send a copy of your current NEWWA or BMI Certification with registration.

**#**

**Lunch on your own.**

***Exam will be given the final day of the course.***

**Prerequisite:** To obtain the ASSE Certification you must have been working as a plumber, sprinkler fitter, or other closely related field for at least 5 years.

## **Registration / Cancellation Policy**

**Registration:** Please note that when registering for any ASSE class, payment must be submitted with registration.

**Cancellations:** Cancellations made AFTER the registration deadline will not receive a refund. Cancellations must be sent to PRWA in writing.

**December 11-13, 2023**
