*For security reasons, all credit card transactions
must be processed through our website.*

If you prefer to pay via credit card, please visit www.prwa.com.

Amount Due:
\$ _____

Pumps and their related drives are probably one of the most complex pieces of machinery a water and wastewater operator encounters. Every operator should have a good basic understanding of their system's pumping equipment and how to properly maintain it. Operation and maintenance of pumps is the function of sustaining or restoring equipment so that it can perform its intended job safely, effectively, and economically. The purpose of this course is to train operators the importance of doing just that.

Topics to be covered:

- Pump Basics
- Pump Types
- Pump Components
- Basic Pump Hydraulics
- Pump Installation
- Maintenance of Pumping Systems

To register by FAX or MAIL:

FAX: (814) 353-9341

MAIL: 138 W. Bishop St., Bellefonte PA 16823

EMAIL: TRAINING@PRWA.COM

EMAILING REGISTRATIONS: EMAIL IS INHERENTLY INSECURE. CREDIT CARD INFORMATION SHOULD NOT BE EMAILED OR SEND IN AN ATTACHMENT.

Instructor:
Brian Sekula

Brian is a PA Registered Professional Engineer and Professional Land Surveyor. He also holds water and wastewater operator licenses in PA. He has extensive experience with the Management and Design of complex systems in potable water treatment facilities, pump stations, and distribution, wastewater treatment facilities, collection, and sewage lift stations. Studies include 537 Plans, rate analyses, funding programs (grant and loans), and DEP Consent Order and Agreements. He provided operation trouble shooting and assistance for potable water and wastewater treatment plants. He has engineering degrees from Drexel University and The Pennsylvania State University and an MBA degree from Clarion University of Pennsylvania. He is semi-retired working as a Senior Engineer – Project Manager with Century Engineering, LLC, a Kleinfelder Company.
