Questions?

Call (800) 653-7792 ext. 107 or 108

Does your system have up to date maps that can provide accurate and reliable information? Having accurate maps will help make the problems that arise from Emergency response, leak detection, storm water management, and collection system maintenance easier to pinpoint and solve. This introductory class will provide operators the opportunity to learn the ins and outs of GIS and how a developed mapping program can better equip their system with the tools necessary to tackle problems using technology.

Topics to be covered:

- Background to GIS
- GIS Basics
- In the field data collecting techniques
- Putting your data to work
- In field examples of data collection

Instructor:
Mike Emery

GIS Specialist

Michael joins PRWA with over 20 years of experience in GIS. Prior to becoming a GIS Specialist for PRWA in 2016, Michael worked for a private engineering firm utilizing GIS in the natural and civil engineering divisions, and the Lancaster County GIS Department, helping counties across the Commonwealth. Michael has a B.S in Geography, specializing in cartography and GIS, from Penn State University.
