This course will help operators understand where their energy dollar goes. First and foremost it will help operators identify what equipment uses energy, how much energy and when that energy is used. Benchmarking of current energy use to quantify savings. Accessing Utility Company Database information from smart-meters will be presented and discussed. Discussions of energy efficient equipment, processes and process control. Discussion of Pennsylvania Law concerning Guaranteed Energy Savings Contracts.

Topics to be covered:

- Energy Use
- Energy Savings
- Energy Terms
- Treatment, Digestion and Disinfection Processes

Instructor:
Ed Pietroski

Ed has a BS in Water Resources Engineering from Penn State University, Capital Campus. Ed has over 40 years experience in the design, construction, and operation of wastewater treatment facilities for both municipal and industrial clients. Ed has trained wastewater operators for approximately 25 years as an instructor for the PA Department of Community Affairs, The Penn State University Cooperative Education Service, and the Pa Rural Water Association.
