**Date:** November 10-14, 2025

**Class Time:** 7:00 AM to 4:30 PM

**Registration Deadline:** 10/22/2025

**Contact Hours:** 32 Water & Wastewater Hours

**Location:**

PA Water Specialties  
180 Wharf Street  
Pittston, PA 18640-1705

**About the Class:**

This course will enable systems to enact a cross-connection control program. In addition, the program participants will learn how to test and troubleshoot backflow prevention assemblies to ensure continued protection to their water supply. This course will involve extensive hands on live practice of many brands of backflow prevention assemblies using a differential pressure gauge.

Testing and Basic Troubleshooting of the Reduced Pressure Principal Assembly (RP), the Double Check Valve Assembly (DCVA), and the Pressure Backflow Prevention Assembly (PVB).\* This course will involve extensive hands on live practice of many brands of backflow prevention assemblies using a differential pressure gauge.

Cross-Connection Control Concepts: Including: Backpressure and Backsiphonage, degree of hazard, types of cross-connections, basic hydraulic concepts, proper installation on guidelines, proper application of backflow prevention devices, operation of backflow prevention assemblies, test equipment, testing safety, etc.

Exam will be given on the final day of the course for ASSE Backflow Tester Certification

**Instructor:** PA Water Specialties Company
