**Location:**

Chestnut Ridge Golf Resort  
1762 Old William Penn Highway  
Blairsville, PA 15717

**About the Class:**

Pumps and their related drives are probably one of the most complex pieces of machinery a water and wastewater operator encounters. Every operator should have a good basic understanding of their system's pumping equipment and how to properly maintain it. Operation and maintenance of pumps is the function of sustaining or restoring equipment so that it can perform its intended job safely, effectively, and economically. The purpose of this course is to train operators on the importance of doing just that.
