Instructor: Exeter Supply Co

Location:

East Taylor Fire Company
403 Donruth Lane
Johnstown, PA 15909

About the Class:

An improperly maintained collection system can add unnecessary costs to a community's wastewater customers. A collection system operator needs to know how to identify the problem areas, how to detect I & I and how to repair those problems once found. This course is designed to help collection system operators establish maintenance and troubleshooting practices and repair collection system problems, so that the system can remain in compliance and not exceed permit levels.
