Date: January 27, 2027
Class Time: 8:00 AM to 3:30 PM
Contact Hours: 6 Wastewater
Instructor: Thomas Goehring

Location:
Holiday Inn Express
1925 Waddle Road
State College, PA 16803-1639

About the Class:

This class will help operators make operational decisions by using the tools at their disposal. We will be discussing the proper use of pH, D.O. and ORP meters. Discussions will also take place to help determine the proper sampling points, settleometer testing, solids testing and calculations, and process control for removal of NH3 - NO2 - NO3. Basic microscope examination and optimizing your operations through automation are just a few of the things we will be covering in this class to help you operate your activated sludge process and interpret laboratory testing and calculation results.
