

*PRWA's Stormwater program can help utilities and their communities prepare for regulations and the accompanying challenges regarding stormwater. Staff will provide technical assistance, resources, and legislative support to help members meet all requirements under these regulations. Utilizing PRWA as a resource through a multifaceted approach can help to manage stormwater and keep water supplies safe for generations to come.*

# Stormwater Conference

November 2, 2017 | Sheraton Harrisburg Hershey Hotel

**THERE'S NO DOUBT ABOUT IT: stormwater management in Pennsylvania is a multi-layered, multi-jurisdictional, ever-changing quagmire of rules, regulations, and requirements.**

Since the passage of the Clean Water Act (CWA), the quality of our Nation's waters has improved dramatically. Despite this progress, however, degraded water bodies still exist. According to the 2000 National Water Quality Inventory, approximately 40% of surveyed U.S. water bodies are still impaired by pollution and do not meet water quality standards. *A leading source of this impairment is polluted stormwater runoff.*

Learn about the challenges and opportunities to reducing stormwater pollution within your community/municipality, and about the future of stormwater management in Pennsylvania.

### Who should attend?

Borough, Township & City Managers  
Wastewater Facility Managers  
Road Masters & Stormwater Engineers

**Limited number of seats available!  
Sign up today!**

\*No contact hours are associated with these classes

## Schedule

8:00 am - 8:45 am

### Registration

9:00 am - 9:30 am

### What Is Stormwater & Why Is It Important to Manage?\*

Stormwater is a natural source of fresh water that originates during heavy precipitation events. When it lands, it infiltrates through the soil and recharges the aquifers that we get drinking water from. But when stormwater can not infiltrate, it starts to create issues. Learn about stormwater and why it needs to be managed.

9:30 am - 10:15 am

### Challenges and Benefits of Creating a Multi-Municipal Stormwater Coalition\*

Presentation of the processes the Blair County groups used to manage their stormwater needs.

10:15 am - 10:30 am

### Break

10:30 am - 11:30 am

### Is A Stormwater Authority Right for You?\*

In 2014, PA Governor Corbett signed into law an amendment that expressly authorizes the creation of municipal stormwater authorities. While this power, among others, does have its benefits, it isn't always the best option for a municipality. Learn if a stormwater authority is beneficial to you and your community.

11:30 am - 1:00 pm

### Lunch & LB Water Vendor Showcase (Included with registration)

Stormwater vendors and industry experts will be available to answer your questions and demonstrate products that can provide solutions to your stormwater needs.

1:00 pm - 2:00 pm

### Stormwater Regulation Requirements\*

The EPA manages the permitting process in some states, but in PA, the PA DEP administers the program and establishes permits for MS4s, industrial sites and any construction activities which disturbs more than one acre of land. While this may sound straightforward, the many facets to stormwater can make the coordination and management of stormwater water programs complicated.

2:00 pm - 2:15 pm

### Break

2:15 pm - 3:00 pm

### Stormwater Mapping Requirements\*

Understanding the location of your separate storm sewer system (MS4) outfalls is the key to effectively managing stormwater runoff and protecting water quality. System maps will not look alike, but they should contain the same basic information and ultimately serve as a tool for implementing the IDDE Program (MCM #3), as well as other components of a Stormwater Management Plan.

3:00 pm - 4:00 pm

### Question & Answer Session

A panel of experts for you to get answers to your questions about stormwater and how it's impacting or will impact you.

### COST:

\$40 Per Person  
Lunch included

### November 2, 2017

Stormwater Conference: MS4 Regulations & the Impacts in Pennsylvania

### LOCATION:

Sheraton Harrisburg Hershey Hotel  
4650 Lindle Road  
Harrisburg, PA 17111  
Dauphin County
