

#758 Public Water Systems Operator's Tools & Techniques

6 WATER CONTACT HOURS

It is very important for an operator today to know and understand all aspects of operating a public water system. This course developed by the EPA covers the key components of system operations including managerial, technical, and regulatory. The course stresses the importance of all responsible parties working together to create a multiple barrier approach.

Topics to be Covered:

- What is a Water System?
- Drinking Water Sources
- Treatment Needs and Options
- Storage
- Transmission, Distribution, and Pumping Facilities
- Multiple Barrier Approach
- Current SDWA Regulations
