## Protecting Your Drinking Water Sources "A Hands on Course"

### 9 WATER CONTACT HOURS

This is a hands-on source water protection planning course. Attendees will work one-on-one with PRWA staff to develop a source water protection plan for their specific system during the class. This course is specifically designed for community water systems that serve a population of less than 1,000, but is also applicable to larger water systems. If your system already has a DEP Approved source water protection plan or you are currently receiving assistance from PA DEP with source water protection, we will put you on a waiting list for the class to allow room for "new" systems to receive this direct assistance.

*\*You will receive 9 water contact hours after completion of the 7 hour classroom training and 2 hour field visit to inspect the water sources. The onsite visit is a requirement of the class*

#### Topics to be covered:

- Steering Committee
- Source Delineation Map
- Contaminant Sources
- Management & Implementation
- Contingency Planning
- New Sources

# April 18, 2019
