

#1820 Drought Contingency Planning

6 WATER CONTACT HOURS

Preparing a Drought Plan when water supplies look good gives systems the opportunity to really look at the situation in a non-emergency condition. Taking a look at the what-if factor and planning for it and when the stages of drought strike will save systems time and money. Being able to still serve the customer base in a drought condition is a challenge with a plan, doing it without one is a critical situation.

Topics to be covered:

- Assessment of Drought Conditions
- Drought Stages
- Drought Contingency Plans
- Volunteer to Mandatory Rationing
- Leakage and Loss Reduction Program

April 11, 2019

AmishView Inn & Suites

MEET THE INSTRUCTOR

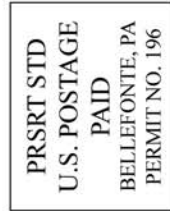

Joel Jordan

Director of Education

Sourcewater Protection Manager

Joel is currently the Director of Education at PRWA, and has held this since 2009. Previously, he held the position of Sourcewater Protection Program Manager and Specialist since 1997. Prior to PRWA, he worked as a Sanitarian and Regional Trainer for the PADEP/DEP Northwest Region and at a small town water/wastewater system in the midwest. Educational background includes a Bachelors of Science in Biology from University of Illinois-Urbana, Secondary Education Certification from Slippery Rock University and GIS certification from Penn State World Campus. Joel also is a Certified PA Warn First Responder.
