

June 4, 2019:

#6970 - Laboratory Skills for Water and Wastewater Operators

6.5 WATER & WASTEWATER CONTACT HOURS

This class is designed to focus on the laboratory technology while referencing corresponding online/process instrumentation where applicable. The topics of colorimetry/spectrophotometry, pH, dissolved oxygen, and nutrients determinations will be discussed and then applied in a hands-on format. Class discussions will address functionality of the technology, instrument calibration and maintenance, and measurement techniques. Class time will combine lecture, demonstration and hands-on practice with instrumentation calibration techniques.

Topics to be Covered:

- 5 Steps of Analysis Disinfection
- Chlorine test, Chlorination, & Chloramination Disinfection Lab
- pH Read TN/TP samples Dissolved Oxygen

June 5, 2019:

#7579 - Advanced Drinking Water Analysis

6 WATER CONTACT HOURS

This class is designed to give participants an overview of the complexities of water analysis. Topics include enhanced coagulation, accuracy checks, QA/QC, and corrosion control. The information will be presented through presentations and extensive hands-on laboratory exercises.

Topics to be Covered:

- Advanced Drinking Water Analysis
- Colorimetry
- Standard Additions (Iron) - MDL Calculation (Iron)

MEET THE INSTRUCTOR

Greg Starlin

Greg has over 20 years of experience in the Water and Wastewater field. He was a Resource Recovery Specialist for the city of Fort Collins Water Reclamation for 7 years before becoming a Class "A" Wastewater Operator in the late 80's. He continued this until summer of 2008 when he became the Technical Instructor at the HACH Technical Training Center.
