

August 18, 2020:

#6970 - Laboratory Skills for Water and Wastewater Operators

6.5 WATER & WASTEWATER CONTACT HOURS

This class is designed to focus on the laboratory technology while referencing corresponding online/process instrumentation where applicable. The topics of colorimetry/spectrophotometry, pH, dissolved oxygen, and nutrients determinations will be discussed and then applied in a hands-on format. Class discussions will address functionality of the technology, instrument calibration and maintenance, and measurement techniques. Class time will combine lecture, demonstration and hands-on practice with instrumentation calibration techniques.

Topics to be Covered:

- 5 Steps of Analysis Disinfection
- Chlorine test, Chlorination, & Chloramination Disinfection Lab
- pH Read TN/TP samples Dissolved Oxygen

August 19, 2020:

#4125 - Process Instrumentation Verification for W & WW

6 WATER & WASTEWATER CONTACT HOURS

The focus of this seminar is for water quality measurements in Water and wastewater plants. Presentations covered in the class include colorimetric analysis, chlorine analysis, pH, and dissolved oxygen in water and wastewater. Parameters measured by the attendee will be free and total chlorine, pH, and dissolved oxygen. Time will be spent on the proper use of standards and verification of accuracy. Attendees will verify the performance of a Chlorine analyzer and calibrate and verify process pH and Dissolved Oxygen probes. The course objectives will be met by presenting theory, incorporating practical applications of analytical techniques, and "hands-on" experience with each parameter.

Topics to be Covered:

- Dissolved Oxygen
- Colorimetry

AmishView Inn & Suites

MEET THE INSTRUCTOR

Alex Rossman

Alex Rossmann has over 5 years experience at Hach across multiple positions and is now a technical instructor at the Hach technical training center. Previous to Hach, Alex has experience working with the water consortium in Charleston, SC, as well as multiple technical fields. He holds a bachelor's degree in Conservation Biology/Environment and Natural Resources from Clemson University.
