

#3613 Well Rehab

4 WATER CONTACT HOURS

The quality and quantity of water obtained from a well is strongly influenced by the construction and maintenance of the well. This course will stress the importance of proper well construction and will help systems understand how to protect and maintain a groundwater system.

Topics to be covered:

- Well Construction
- Pump Maintenance
- Well Maintenance
- Rehab Technologies

Important!

Masks are required by all attendees at PRWA training seminars.

Prior Authorization is required by our office if you are unable to wear a mask.

MEET THE INSTRUCTOR

Neil Mansuy

Neil Mansuy has approximately 35 years of extensive, worldwide well problems and rehabilitation experience. Neil holds a M.S. degree in Ground Water microbiology specializing in iron-related bacteria and causes of well plugging. Neil has become recognized as a leading authority on well rehabilitation. During the past thirty five years of related experience, assessment of well problems and recommending cost-effective solutions has been performed on thousands of wells across the U.S. and around the world. Neil has the unique combination of extensive multidisciplinary understanding of well problems and the experience to recommend the most cost-effective solutions. Neil currently works for Subsurface Technologies as Vice President of technical services.
