

#246 Distribution Components and Disinfection

6 WATER CONTACT HOURS

The objective of this course is to instruct students on a drinking water distribution system. Upon successful completion of this course, students will have gained knowledge on the major components of a drinking water distribution system in addition to completing proper distribution disinfection dosage calculations. Additionally, students will understand proper operations and maintenance of a storage facility.

Topics to be covered:

- Introduction to Distribution Systems
- Pumping and Head
- Mains and Components
- Disinfection Chemicals
- Proper Disinfection
- Storage Facilities

Important!

Masks are required by all attendees at PRWA training seminars.

Prior Authorization is required by our office if you are unable to wear a mask.
