

#317 Water Leak Detection

4 WATER CONTACT HOURS

Our Nations most valuable resource is water. This course is designed to instruct water company personnel in proper leak detection techniques through classroom and hands-on training. The idea of leak detection is to prevent water loss and unaccounted for water in small systems. Leak detection also prevents property damage, thus reducing cost and down production time to the water utility.

Topics to be covered:

- Introduction of Leak Detection
- Types of Leak sounds
- Choosing the Correct Filter Settings
- Leak Isolation and Pinpointing
- All sounds are not leaks

Important!

Face Coverings are required by all attendees at PRWA training seminars.

Prior Authorization is required by our office if you are unable to wear a Face Covering.

October 21, 2020

Quality Inn

MEET THE INSTRUCTOR

Chris Shutt
Wastewater Technician

Chris is a certified water and wastewater operator, as well as a Certified PaWARN First Responder. Chris has been with PRWA since 1992. Over the last 20+ years, Chris has developed an expertise in distribution and collection systems with his work in line locating, leak detection, and smoke and camera work. Prior to joining PRWA, Chris was the operator manager of a system for 15 years.
