

#2823

Membrane Filtration for Water & Wastewater Treatment

6 WATER & WASTEWATER CONTACT HOURS

This workshop is designed as an introduction to membrane filtration for public water and wastewater treatment systems in Pennsylvania. Membrane filtration is a useful mechanism for the treatment of public drinking water and wastewater and this class introduces students to membrane filtration types, principles of operation, components, applications, pros and cons, and case studies. This class will help system operators make informed decisions about membrane filtration at their own plants.

Topics to be covered:

- Types of Membrane Filters
- Basic Principles of Membrane System Operation
- Membrane System Components
- Membrane Applications
- Advantages and Disadvantages

Important!

Masks are required by all attendees at PRWA training seminars.

Prior Authorization is required by our office if you are unable to wear a mask.
