Our Nations most valuable resource is water. This course is designed to instruct water company personnel in proper leak detection techniques through classroom and hands-on training. The idea of leak detection is to prevent water loss and unaccounted for water in small systems. Leak detection also prevents property damage, thus reducing cost and down production time to the water utility.

Topics to be covered:

- Introduction of Leak Detection
- Types of Leak sounds
- Choosing the Correct Filter Settings
- Leak Isolation and Pinpointing
- All sounds are not leaks
