## Asset Management with Remote Control and Monitoring for Water and Wastewater Systems

### 3 WATER AND WASTEWATER CONTACT HOURS

Learn how to improve water and wastewater efficiencies in municipalities via GIS and an asset management platform. Customize all facets of asset management with interactive cellular based communication, save time and money with real-time control and monitoring.

**#1331**

## Distribution System Troubleshooting

### 3 WATER CONTACT HOURS

New regulations focused on distribution have made it important for system operators to know and understand the components of that system. Proper operations and maintenance of the valves, hydrants, and meters along with regular monitoring and leak repairs are essential to the quality of the water systems deliver to their customers.

### Topics to be covered:

- Methods to gather data
- Plant control systems
- Valve applications
- Hydrant flushing
- Meter accuracy
- Leak detection

### Important!

**Face Coverings are required by all attendees at PRWA training seminars.**

*Prior Authorization is required by our office if you are unable to wear a Face Covering.*
