ASSE Cross Connection Control Recertification

This class will provide renewal for Testers, Surveyors, and Repairers. At this 8 hour training, participants will review the guidelines used for acceptable practices of testing backflow prevention devices. The participants will receive the information and skills to help them pass the American Society of Sanitary Engineering (ASSE) Recertification Examination. At the end of the training the recertification exam will be given. This consists of a written and hands-on exam. This training is mandatory in order for the student to recertify under ASSE guidelines.

Must have valid ASSE Tester Certification.

Laptops will be provided for in-class use. If you require a paper copy of the materials, it can be provided at an additional cost of \$250. All exams will be given by computer.

Lunch on your own.

Important!

Face Coverings are required by all attendees at PRWA training seminars.

Prior Authorization is required by our office if you are unable to wear a Face Covering.

Prerequisite: To obtain the ASSE Certification you must have been working as a plumber or system operator for at least 5 years.

Registration / Cancellation Policy

Registration: Please note that when registering for any ASSE class, payment must be submitted with registration. Any persons not paid in full by the registration deadline will not be registered for the class - *no exceptions*.

Cancellations: Cancellations made AFTER the registration deadline will not receive a refund. Cancellations must be sent to PRWA in writing

Instructor:
Kirk Elkin

Kirk has over 18 years working with water distribution systems and treatment plants as a PA Class-A Licensed Drinking Water Plant Operator and a Sanitarian and Sanitarian Supervisor for the PA DEP with over 16 years working in cross-connection control. In 2000 Kirk started the PRWA Cross-Connection Control Training Program which was continued by PA Water Specialties Company and has become an ASSE Certified School. Kirk has been a certified tester for over 14 years and has been an ASSE Instructor for testing, repair and maintenance, surveying, and cross connection control program administration since 2006. Working in the field he has installed, repaired, and tested many types and brands of backflow prevention devices and assemblies.
