Two Seminars to Choose From!

#1331

Distribution System Troubleshooting

3 WATER CONTACT HOURS

New regulations focused on distribution have made it important for system operators to know and understand the components of that system. Proper operations and maintenance of the valves, hydrants, and meters along with regular monitoring and leak repairs are essential to the quality of the water systems deliver to their customers.

Topics to be covered:

- Valve Exercising
- Valve Applications
- Hydrant Flushing
- Meter Accuracy
- Leak Detection

#3611

Collection System Inspection for Failing Infrastructure

3 WASTEWATER CONTACT HOURS

How do you fix what you can't see? This course will help systems find and address the pressing problem of failing infrastructure.

Topics to be covered:

- The Costs of Failing Infrastructure
- Manhole Inspections, Repair & Maintenance
- Mainline Inspection Technologies
- Lateral Inspection Techniques

Important!

Face Coverings are required by all attendees at PRWA training seminars.

Prior Authorization is required by our office if you are unable to wear a Face Covering.
