## Distribution System Workshop and Management

6 WATER CONTACT HOURS

**Distribution System Workshop:** New regulations and security concerns directed toward distribution systems have made it important for system operators to know and understand the components of their distribution system. Proper operations and maintenance of the valves, hydrants, and meters are essential to the quality of the water systems delivered to their customers.

**Distribution System Management:** There are many aspects to managing the potable water distribution system. This course will cover some of the considerations of line and potable water management. Examples and case studies of good management will be reviewed.

### Topics to be covered:

- Valve Exercising
- Valve Applications
- Hydrant Flushing
- Meter Accuracy
- Controlling access
- Limiting loss
- Line maintenance

### Important!

**Face Coverings are required by all attendees at PRWA training seminars.**

*Prior Authorization is required by our office if you are unable to wear a Face Covering.*
