Greensand Filtration

#7168

Groundwater Fundamentals and Filtration  
Basics

6 WATER CONTACT HOURS

**Greensand Filtration:** Many public water systems throughout Pennsylvania have appreciable levels of iron and manganese in their surface and groundwater sources. These systems are required to provide treatment to minimize the associated water quality problems. This course will discuss the background and basic chemistry of iron and manganese in source waters and the various treatment alternatives. The course will focus on greensand filtration, the most widely used treatment method for iron and manganese removal.

**Groundwater Fundamentals and Filtration Basics:** This course will focus on the fundamentals of groundwater supply and treatment, and various filtration alternatives to meeting safe drinking water requirements. Emphasis will be placed on the evaluation and selection of the appropriate filtration techniques and advantages/limitations therewith, operation and maintenance, equipment and chemicals necessary for appropriate utilization and operations of selected alternatives.

### Topics to be covered:

- Fe Mn Basics
- Treatment Options
- Groundwater Facts
- Treatment of Groundwater

### Important!

**Face Coverings are required by all attendees at PRWA training seminars.**

*Prior Authorization is required by our office if you are unable to wear a Face Covering.*

**March 11, 2021**

**Red Lion Hotel**  
4751 Lindle Road  
Harrisburg, PA 17111  
**Dauphin County**

**Class Time:** 8:00 am - 3:30 pm

**Registration:** 7:30 am

*Lunch and materials provided with your registration*

**Instructor:  
Travis Long**

Travis Long is a Senior Project Leader for JHA Companies. He is a graduate of Juniata College and has 19 years experience in the planning, design, construction management and operations of water and wastewater treatment facilities and pilot units. He is a certified water and wastewater operator and has worked with and conducted extensive evaluations and testing in over 200 water and wastewater facilities throughout Pennsylvania, New York, Ohio and West Virginia. Travis is active in numerous environmental, water and wastewater related organizations.
