Introduction to High Pressure Water Cleaning (Jetting) in Collection System Pipes

3 WASTEWATER CONTACT HOURS

In this class we will cover all equipment and various techniques for jetting collection system lines of all types. Equipment covered will be pumps, nozzles and hose as well as the use of pressure and flow in the lines. The class will include information on cleaning 6" through 48" pipe and the different techniques involved. Depending on weather and equipment available some hands on work will be done.

Topics to be covered:

- Intro to Pipe Cleaning
- Nozzles
- Pumps
- Risks and Safety
- Pressure and Flow

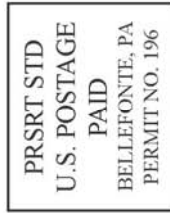

Important!

Face Coverings are required by all attendees at PRWA training seminars.

Prior Authorization is required by our office if you are unable to wear a Face Covering.
