Management**

6 WATER AND WASTEWATER CONTACT HOURS

Each utility is responsible for ensuring that its system stays in good working order, regardless of the age of components or the availability of additional funds. Water and Sewer systems deteriorate over time and develop cracks, breaks, and blockages if not properly maintained. This training is designed to explore the elements of CMOM and Asset Management as it relates to water and wastewater utilities. Using a case study and scenario, learners explore the process of developing a CMOM/Asset Management Plan so that they are able to develop a utility-specific plan.

Topics to be covered:

- Goals
- System Management
- System Evaluation
- Monitoring and Measuring
- Emergency Plans

Important!

**Face Coverings are required by all attendees
at PRWA training seminars.**

*Prior Authorization is required by our office if you
are unable to wear a Face Covering.*

Instructor:
Tom Goehring

Wastewater Technician

Tom is a Wastewater Training Specialist. Tom started in the wastewater field in 1994 performing plant operations, laboratory DMR and process control testing, and collection system management until 2008. He then began work with the State of West Virginia assisting utilities with proper managerial and financial procedures until he returned to Pennsylvania and joined PRWA as a wastewater technician in 2013. He currently holds a Class A wastewater license in Pennsylvania and a Class IV wastewater license in West Virginia.
