Operator Health & Safety Survival Guide

6 WATER AND WASTEWATER CONTACT HOURS

Our nations most valuable resource is those who spend their days on the job. Water and sewer plant operators are among those people, therefore a course on operator health and safety is needed. The purpose of this course is to instruct students on most aspects of health and safety in the water and sewer industry. Upon completion of the course, students will be able to understand the importance of safe work practices and recognize unsafe work practices.

Topics to be covered:

- Introduction to operator health and safety
- Workplace safety
- Confined space safety
- Unseen Hazards
- Trench safety and breakout sessions

Important!

Face Coverings are required by all attendees at PRWA training seminars.

Prior Authorization is required by our office if you are unable to wear a Face Covering.

registration*

**Instructor:
Joel Jordan**

Director of Education

Joel is the Director of Education at PRWA. Previously, he held the position of Sourcewater Protection Program Manager and Specialist since 1997. Prior to PRWA, he worked as a Sanitarian and Regional Trainer for the PADEP/DEP Northwest Region and at a small town water/wastewater system in the midwest. Educational background includes a Bachelors of Science in Biology from University of Illinois-Urbana, Secondary Education Certification from Slippery Rock University and GIS certification from Penn State World Campus. Joel also is a Certified PaWarn First Responder.
