Questions?

Call (800) 653-7792 ext. 107 or 108

This is a hands-on source water protection planning course. Attendees will work one-on-one with PRWA staff to develop a source water protection plan for their specific system during the class. This course is specifically designed for community water systems that serve a population of less than 1,000, but is also applicable to larger water systems. If your system already has a DEP Approved source water protection plan or you are currently receiving assistance from PA DEP with source water protection, we will put you on a waiting list for the class to allow room for "new" systems to receive this direct assistance.

Topics to be covered:

- Steering Committee
- Source Delineation Map
- Contaminant Sources
- Management & Implementation
- Contingency Planning
- New Sources

***You will receive 9 water contact hours after completion of the 7 hour classroom training and 2 hour field visit to inspect the water sources. The onsite visit is a requirement of the class**

Prior Authorization is required by our office if you are unable to wear a Face Covering.

**Instructor:
Don Muir**

Sourcewater Protection Specialist

Don has been in the water industry since 1987. Before coming to PRWA in 1998, Don was employed in private industry performing leak detection and line locating services through-out the United States. Don has worked in Rural Water's Source Water Protection program since 2007, assisting water systems protect their raw water sources. Prior to that, Don worked in the Water Conservation program, the CMAP water testing cost reimbursement program and the Vulnerability Assessment / Emergency Response Planning program. Don is also a Certified PaWARN First Responder.
