#6116 Basic Hydraulics

5 WATER AND WASTEWATER CONTACT HOURS

Understanding the basics of water hydraulics in piped systems is an important part of an operator's job. This course will review hydraulic fundamentals and principles commonly found in the water/wastewater systems. Students will learn to solve basic problems utilizing skills learned during the course.

Topics to be covered:

- Hydraulic Terms and Principles
- Density and Specific Gravity
- Pressure and Force
- Head and Horsepower

PRWA Training Event Safety

The safety of our attendees is of utmost importance. Fully vaccinated Trainers & Attendees can choose not to wear masks.

However, PRWA Training sites are private facilities with their own rules. PRWA is subject to their masking rules & Covid policies while using their facility.
