## Drinking Water System Fundamentals 101

### 5.5 WATER CONTACT HOURS

The role of a water system is complex. This course discusses the historical aspects and regulations which have evolved (and are still evolving) to ensure safe drinking water throughout America. This course introduces the roles and responsibilities of those involved in the production of safe drinking water (including owners, managers, and operators). This course address source water contamination and the need for protecting those sources. Additionally, the course covers various aspects of water treatment.

### Topics to be Covered:

- Historical aspects
- Regulations
- Roles and Responsibilities
- Sources, Contamination, and Protection
- Treatment Overview:
- Ground water Treatment
- Conventional Filtration
- Disinfection
- Taste and Odor
- Fluoridation and Corrosion Control
- Iron and Manganese
- Other Treatment Options

### PRWA Training Event Safety

The safety of our attendees is of utmost importance. Fully vaccinated Trainers & Attendees can choose not to wear masks.

However, PRWA Training sites are private facilities with their own rules. PRWA is subject to their masking rules & Covid policies while using their facility.
