Fundamental Principals and Techniques in Buried Utility Location

5 WATER AND WASTEWATER CONTACT HOURS

Accurate utility line locating and marking are essential in providing a safe digging environment. Historically, many locators have not had formal training in the process of accurate utility line marking. Because of this lack of training many lines continue to be miss marked or unidentified. The goal of this course is to provide the tools necessary to accurately and efficiently locate a wide variety of buried utilities. This course is designed to teach the concepts and physics of utility line locating equipment. The information provided applies to a wide range of utility locating equipment and is not specific to one make or model.

Topics to be covered:

- Background and brief history of locating
- Electromagnetic field
- Passive and Active signals
- Methods of application

PRWA Training Event Safety

The safety of our attendees is of utmost importance. Fully vaccinated Trainers & Attendees can choose not to wear masks.

However, PRWA Training sites are private facilities with their own rules. PRWA is subject to their masking rules & Covid policies while using their facility.
