Aerobic Digestion/Let's Clarify Clarifiers

6 WASTEWATER CONTACT HOURS

Aerobic Digestion: Review the theory of an aerobic digester including proper biological balances. The components and physical elements of the digestion process are outlined, as are the operational controls and process considerations for successful operation of an aerobic digester.

Let's Clarify Clarifiers in Wastewater Treatment: This course will help operators understand the various types of Clarifiers and how they operate as an integral part of the wastewater treatment system. Hydraulic Design Principles and Solids Loading Principles will be explained but more importantly how the Clarifier must be operated to stay within those principles will also be shown. The course will be specifically geared to making the operator understand the day to day adjustments of running a Clarifier. Theory be "damned".

Topics to be covered:

- Digester Components
- Digester Operation & Maintenance
- Essential Functions of Clarifiers
- Hydraulic Designs and Solid Designs

PRWA Training Event Safety

The safety of our attendees is of utmost importance. Fully vaccinated Trainers & Attendees can choose not to wear masks.

However, PRWA Training sites are private facilities with their own rules. PRWA is subject to their masking rules & Covid policies while using their facility.

Class Time: 8:00 am - 3:30 pm

Registration: 7:30 am

*Lunch and materials provided with your
registration*

Instructor:
Ed Pietroski

Ed has a BS in Water Resources Engineering from Penn State University, Capital Campus. Ed has over 40 years experience in the design, construction, and operation of wastewater treatment facilities for both municipal and industrial clients. Ed has trained wastewater operators for approximately 25 years as an instructor for the PA Department of Community Affairs, The Penn State University Cooperative Education Service, and the Pa Rural Water Association.
