Questions?

Call (800) 653-7792 ext. 107 or 108

Distribution System Workshop: New regulations and security concerns directed toward distribution systems have made it important for system operators to know and understand the components of their distribution system. Proper operations and maintenance of the valves, hydrants, and meters are essential to the quality of the water systems deliver to their customers.

Distribution System Management: There are many aspects to managing the potable water distribution system. This course will cover some of the considerations of line and potable water management. Examples and case studies of good management will be reviewed.

Topics to be covered:

- Valve Exercising
- Valve Applications
- Hydrant Flushing
- Meter Accuracy
- Controlling access
- Limiting loss
- Line maintenance

PRWA Training Event Safety

The safety of our attendees is of utmost importance. Fully vaccinated Trainers & Attendees can choose not to wear masks.

However, PRWA Training sites are private facilities with their own rules. PRWA is subject to their masking rules & Covid policies while using their facility.
