Wastewater Laboratory Skills

5 WASTEWATER CONTACT HOURS

The Wastewater lab class will introduce operators and laboratory technicians to basic laboratory procedures. The course will include discussions on the Clean Water Act, standard methods and sampling procedures. Demonstrations as well as video presentations will be used to help students learn about Wastewater Laboratory Techniques. The course should be beneficial to both entry level operators as well as experienced Laboratory Technicians.

Topics to be covered:

- Testing - Solids, pH and Alkalinity, Oxygen Determination, Microbial, Chlorine, Nitrogen
- Ammonia; Sampling

PRWA Training Event Safety

The safety of our attendees is of utmost importance. Fully vaccinated Trainers & Attendees can choose not to wear masks.

However, PRWA Training sites are private facilities with their own rules. PRWA is subject to their masking rules & Covid policies while using their facility.

registration*

**Instructor:
Phil Giunta**

Wastewater Technician

Philip Giunta has over 25 years of experience maintaining various water and wastewater treatment plants and distribution and collection systems, as well as ground maintenance. Phil spent those years in both the municipal and contract operations working in plants from .080 to 1.2 MGD. Phil is also extensively familiar with both PA DEP and USEPA reporting systems and MS4 regulations. Phil has maintained an A License in both water and wastewater for 20 years. Phil is eager to work for PRWA and assist anyone who needs the help.
