This course is designed to train and inform operators in the practical aspects of operating and maintaining water distribution systems, emphasizing safe practices and procedures. Topics include the role and duties of water distribution system operators, how to implement a successful program of testing and maintenance, and procedures for operating and maintaining critical valves and hydrants within their system and the utilization of state of the art technology to aid in the gathering of vital information.

## Topics to be covered:

- Valve Exercising
- Fire Flow Testing
- Unidirectional Flushing

## THE PRWA PROMISE

If you're not 100% satisfied with the training class for any reason, we will give you a refund!
