EMAIL: [TRAINING@PRWA.COM](mailto:TRAINING@PRWA.COM)

EMAILING REGISTRATIONS: EMAIL IS INHERENTLY INSECURE. CREDIT CARD INFORMATION SHOULD NOT BE EMAILED OR SEND IN AN ATTACHMENT.

### Questions?

Call (800) 653-7792 ext. 107 or 108

The quality of drinking water a system delivers to its customers can be affected by the age and condition of the distribution system. Proper repair and maintenance of the system is a must. How often a hydrant is flushed or a valve is exercised can make a difference. Proper tapping of a main can mean a flawless cut or a day of customers without water. The proper size and type of meter application can mean additional revenues to a system. This course is designed to give operators hands-on experience with distribution components and their proper installation, maintenance and use.

### Topics to be covered:

- Fire Hydrants - O&M and Security
- Gate, Butterfly and Check Valves
- Main to Meter Products - stop, fittings, meter boxes, yokes and settings
- Pipe Repair Products - saddles, sleeves and clamps
- Drilling and Tapping Water Lines
- Tips from the Field

**The Mueller Traveling Training Team has extensive knowledge from around the United States and is available once every four years in this area. Be sure to reserve your spot today.**
