## Questions?

Call (800) 653-7792 ext. 107 or 108

**Lift Station Operation & Maintenance:** This course provides an overview of lift stations, including basic design principles, typical operation, and lift station maintenance.

**Solutions for Solving Inflow and Infiltration:** An improperly maintained collection system can add unnecessary costs to a community's wastewater customers. A collection system operator needs to know how to identify the problem areas, how to detect I & I and how to repair those problems once found. This course is designed to help collection system operators solve the costly problems association with I & I.

## Topics to be covered:

- Lift Station Basics
- Lift Station Operations & Maintenance
- Identifying I & I Problems
- Methods of Rehabbing Manholes
- Lateral Repairs
- Mainline Repairs

**Class Time:** 8:00 am - 3:30 pm

**Registration:** 7:30 am

*Lunch and materials provided with your registration*

**Instructor:**

**High Tide**

**Environmental, LLC**

High Tide Environmental LLC is a small environmental consulting company focused on providing water, wastewater and stormwater consulting services. The mission is simple, help clients protect and preserve the environment through optimizing their treatment processes, while assisting them in providing effective, efficient treatment and remaining compliant with continuously changing environmental regulations. Services provided include operations consulting, development of feasibility studies, completion of rate studies, water/wastewater system design and troubleshooting, and annual reporting assistance. Lance Hoover, *Company President*, has been a certified water and wastewater operator for more than 25 years, with experience in many facets of the water and wastewater industry.
