Collection System Troubleshooting: An improperly maintained collection system can add unnecessary costs to a community's wastewater customers. A collection system operator needs to know how to identify the problem areas, how to detect I & I and how to repair those problems once found. This course is designed to help collection system operators establish maintenance and troubleshooting practices and repair collection system problems, so that the system can remain in compliance and not exceed permit levels.

Wastewater Issues Manholes Chlorination and Septage Receiving: This course is designed to analyze, evaluate and discuss the common and not so common problems that arise in a wastewater system.

Topics to be covered:

- Solutions to Reduce I&I Problems
- Methods of rehabbing manholes
- Lateral, Mainline, Grinder and Pump repairs
- Chlorination Equipment
