ASSE Backflow Prevention Assembly Testers Certification

32 WATER AND WASTEWATER CONTACT HOURS

This course will enable systems to enact a cross-connection control program. In addition, the program participants will learn how to test and troubleshoot backflow prevention assemblies to ensure continued protection to their water supply. This course will involve extensive hands on live practice of many brands of backflow prevention assemblies using a differential pressure gauge.

**Participants will need a laptop for evening work and studying for this course. Laptops will be provided for in-class use. If you require a paper copy of the materials, it can be provided at an additional cost of \$250. All exams will be given by computer.*

Lunch on your own.

Exam will be given the final day of the course.

Prerequisite: To obtain the ASSE Certification you must have been working as a plumber, system operator, sprinkler fitter or other closely related field for at least 5 years.

Registration / Cancellation Policy

Registration: Please note that when registering for any ASSE class, payment must be submitted with registration.

Cancellations: Cancellations made AFTER the registration deadline will not receive a refund. Cancellations must be sent to PRWA in writing.
