#5110

ASSE Cross Connection Control Recertification

This class will provide renewal for Testers, Surveyors, and Repairers. At this 8 hour training, participants will review the guidelines used for acceptable practices of testing backflow prevention devices. The participants will receive the information and skills to help them pass the American Society of Sanitary Engineering (ASSE) Recertification Examination. At the end of the training the recertification exam will be given. This consists of a written and hands-on exam. This training is mandatory in order for the student to recertify under ASSE guidelines.

Please keep in mind that this is a very challenging course to complete in 8 hours (including 1 hour for written test). You must demonstrate proficiency on testing all 4 types of backflow prevention assemblies and pass a 25 question written test. There will be minimal time in class to prepare for the written exam and therefore, it is strongly recommended that course material from previous classes be reviewed before the day of the class.

Must have valid ASSE Tester Certification.

Laptops will be provided for in-class use. If you require a paper copy of the materials, it can be provided at an additional cost of \$250. All exams will be given by computer.

Lunch on your own.

Prerequisite: To obtain the ASSE Certification you must have been working as a plumber or system operator for at least 5 years.

Registration / Cancellation Policy

Registration: Please note that when registering for any ASSE class, payment must be submitted with registration.

Cancellations: Cancellations made AFTER the registration deadline will not receive a refund. Cancellations must be sent to PRWA in writing.

Instructor:
Kirk Elkin

Kirk is the Director of Compliance and Training for PAWSC and NAWSC. Kirk has over 25 years experience working with and regulating Public Water Supplies including water distribution systems and treatment plants as a Sanitarian and Sanitarian Supervisor for the PA DEP Northwest Region and while working for PRWA and PAWSC. Kirk is a PA Class-A Licensed Drinking Water Plant Operator since 2007. Kirk has trained and certified hundreds of certified testers and repairers since 2001 using ASSE, ABPA, and NEWWA methods. Prior to joining NAWSC and PAWSC, Kirk worked in oil and gas for 12 years for both the PADEP Office of Oil and Gas Management and also as the Director of Environmental Health and Safety Corporate Compliance for the Diversified Gas and Oil Corporation and Atlas Energy, L.P. in 14 states (9/2013-5/2021) Kirk is a veteran of the U.S. Navy and graduate of The Pennsylvania State University and holds a B.S., Environmental Resource Management.
