This class's main goal is to teach you how to manage and reduce Inflow and Infiltration (I&I) utilizing manholes. The course covers why inspection of sanitary sewer manholes should be included in an asset management inspection program and SOPs. Includes tools on how to design inspection maps, clear easements and develop a logical maintenance program for manholes. Also covers working with Agencies to understand the flood plain elevations and soil types that affect the life cycle of the structures.

Topics to be covered:

- How to develop and maintain accurate records for performing a logical sanitary sewer manhole inspection
- Developing MH Numbering
- How to Take a Digital Photograph of a Sanitary Sewer Manhole

THE PRWA PROMISE

If you're not 100% satisfied with the training class for any reason, we will give you a refund!

Instructor:
Scott Shipe

J. Scott Shipe has 45 years of experience managing water & wastewater utilities having worked at four utilities. During his career he has developed many programs regarding addressing Inflow and Infiltration (I&I) & Sanitary Sewer Overflows (SSO's) and Water Distribution System Critical Infrastructure. He has performed countless projects, managed and or inspected over 40,000 Fire Hydrants & Valves & 10,000 Manholes including 5,100 Miles of Water & Sewer Pipeline Infrastructure, including development of a comprehensive 35 step Asset Inspection Program aimed at maintenance and rehabilitation for minimizing sanitary sewer overflows (SSO's) and (I&I) and insuring Fire Hydrants are ready in moment's notice to assure protection of your Water System for fire fighting purposes without restriction.
