Fire Hydrants are critical infrastructure for your distribution system and your community as a whole. Performing a system-wide audit of those hydrants is important to ensure they function when needed and do not cause damage to the system. This course will provide operators with the information to begin inspecting hydrants, common issues, and basic maintenance for hydrants.

## **Topics to be covered:**

- Reasons for inspections
- Equipment Needed
- Applying Audit

## **THE PRWA PROMISE**

If you're not 100% satisfied with the training class for any reason, we will give you a refund!

*Materials provided with your registration*

**Instructor:**  
**Scott Shipe**

J. Scott Shipe has 45 years of experience managing water & wastewater utilities having worked at four utilities. During his career he has developed many programs regarding addressing Inflow and Infiltration (I&I) & Sanitary Sewer Overflows (SSO's) and Water Distribution System Critical Infrastructure. He has performed countless projects, managed and or inspected over 40,000 Fire Hydrants & Valves & 10,000 Manholes including 5,100 Miles of Water & Sewer Pipeline Infrastructure, including development of a comprehensive 35 step Asset Inspection Program aimed at maintenance and rehabilitation for minimizing sanitary sewer overflows (SSO's) and (I&I) and insuring Fire Hydrants are ready in moment's notice to assure protection of your Water System for fire fighting purposes without restriction.
