#3579

Electric Motors and Energy Efficiency in Water
and Wastewater Systems

Location:
Holiday Inn
600 Wildflower Drive
Wilkes-Barre, PA 18702
Luzerne County

One Registration per person please!

Please provide the best contact information in case of class cancellation or changes.

Attendee Name: _____

PA DEP Client ID (if applicable): _____ Attendee E-Mail: _____

System/Company: _____

Attendee Cell Phone: _____ Fax: _____

Address: Home
 System/Company _____

City: _____ State: _____ Zip: _____

PAYMENT:

Check (payable to PRWA)

PRWA Member? Yes No

Invoice Me: Home System/Company

Attendance cost per person:

\$185 for PRWA Members

\$220 for Non-Members

Amount Due:

\$ _____

For security reasons, all credit card transactions

must be processed through our website.

If you prefer to pay via credit card, please visit www.prwa.com.

THE PRWA PROMISE

If you're not 100% satisfied with the
training class for any reason, we will give
you a refund!

Electric Motors and Energy Efficiency in Water and Wastewater Systems

6.5 WATER AND WASTEWATER CONTACT HOURS

The purpose of this course is to teach water, wastewater, and maintenance personnel basic electrical concepts and calculations to better apply electrical motors and to maintain electrical motors to maximize energy efficiency. The class will stress the importance of using high efficiency motors and how motor size in HP can effect efficiency in a given motor application. This class will also stress the importance (and demonstrate) how to properly take electrical measurements using a multi-meter and then how to perform necessary calculations using those measurements. The class will also teach participants how to calculate energy savings and pay back time which can provide a powerful incentive for system boards and administrations to use high efficiency motors and either replace or rewind old inefficient electric motors. The true purpose of this course is to help water and wastewater systems to improve energy efficiency and therefore improve their long term viability.

Topics to be covered:

- Discuss Efficiency
- Benefits of Energy Efficient Motors
- Purchase Price vs. Operating Cost Concepts
- Motor Master Program
- Electrical Concepts, Definitions, and Calculations

registration*

Instructor:

**PA Water Specialties
Company**

PAWSC is one of the top training providers in distribution and collections for water and wastewater systems. Their core training staff has over 100 years of combined experience in distribution and collection, regulatory compliance in water and wastewater, and safety. The instructors have a practical training approach supported by actually “doing the work” in the field.
