Amount Due:  
\$ \_\_\_\_\_

*For security reasons, all credit card transactions must be processed through our website.*

*If you prefer to pay via credit card, please visit [www.prwa.com](http://www.prwa.com).*

Pumps and their related drives are probably one of the most complex pieces of machinery a water and wastewater operator encounters. Every operator should have a good basic understanding of their system's pumping equipment and how to properly maintain it. Operation and maintenance of pumps is the function of sustaining or restoring equipment so that it can perform its intended job safely, effectively, and economically. The purpose of this course is to train operators the importance of doing just that.

### Topics to be covered:

- Pump Basics
- Pump Types
- Pump Components
- Basic Pump Hydraulics
- Pump Installation
- Maintenance of Pumping Systems

### THE PRWA PROMISE

If you're not 100% satisfied with the training class for any reason, we will give you a refund!
